Instead it certifies to either financial institutions that it is compliant with the requirements of a certified deemed-compliant FFI according to FATCA. This also applies to institutions that have been included as deemed-compliant financial institutions in Annex II of any IGA.

FATCA contains five categories of certified deemed-compliant FFIs:

If you are uncertain whether the entity could qualify for a certified deemed-compliant FFI status, please consult a tax advisor.

Controlling person (CP)

The controlling person is the natural person who ultimately owns or controls an organization or the natural person for whose account a transaction or activity is being performed. Please note: an organization can have several controlling persons.

Categories of natural persons who in any case have to be considered as the controlling person are listed below. Please note that for the assessment whether a person is regarded as the controlling person, natural persons who hold a lower percentage than 25% of shares, voting rights or legal ownership can also be regarded as CPs, if these persons otherwise acquire ultimate control in a company (for example on the basis of contractual relations).

In the case of a BV or NV, not being a listed company or a 100% participation of a listed company:

- natural persons who ultimately own or control the company via:
 - holding directly or indirectly more than 25 percent of the (bearer) shares, voting rights or the legal ownership in the company; or
 - ether means, including the conditions for consolidation of financial statements, or
- if no CP based on the above, the senior management officials (see below) of the company.

In the case of a religious community:

- natural persons who have been appointed as legal successors in the statute of the religious community upon dissolution of the religious community; or
- if no CP based on the above, the natural persons that are stated as director in its own statute, or if possible, as director in the documents of the religious organization.

In the case of another legal entity (including foundation, association, mutual society and cooperative):

- natural persons who ultimately own or control the legal ownership via:
 - holding directly or indirectly more than 25 percent of the legal ownership in the legal entity;
 - being able to exercise, directly or indirectly, more than 25 percent of the votes in decision-making regarding changes to the articles of association of the legal entity or the exercise of effective control over the legal person; or
- if no CP based on the above, the senior management officials (see below) of the company.

In the case of a partnership (including shipping companies, European economic interest groups and other similar legal entities):

- natural persons who ultimately own or control the partnership through:
 - holding directly or indirectly more than 25 percent of the ownership interest in the partnership;
 - being able to exercise directly or indirectly more than 25 percent of the votes in decision-making regarding changes to the agreement on which the partnership is based, or with regard to the performance of that agreement either than through acts of management, insofar as in that agreement decision-making by a majority of votes is prescribed; or
 - being able to exercise effective control over the partnership; or
- if no CP based on the above, the senior management officials (see below) of the company.

In the case of a trust:

- the founder or founders;
- the trustee or trustees;
- where applicable, the protector or protectors;
- the beneficiaries, or in so far as the individual persons that are the beneficiaries of the trust cannot be determined, the group of persons in whose interests the trust is mainly established or operates; and
- any other natural person who exercises ultimate control over the trust through, direct or indirect, legal ownership or through other means.

Senior management officials

Senior management officials are exclusively understood as: the statutory management, or, in the case of a partnership, one or more partners, with the exception of the limited partner in a limited partnership.

The above description of an ultimate beneficiary is derived from article 1, first paragraph of the Dutch Money Laundering and Terrorist Financing Act (Wwft) in combination with article 3, first paragraph of the Wwft Implementation Decree (Uitvoeringsbesluit). For the purpose of determining the controlling persons, the Wwft and Wwft implementation decree will always be leading. You will find the Wwft and the Wwft implementation decree on wetten.overheid.nl. The term 'Controlling personen' is interpreted in a manner consistent with the Financial Action Task Force Recommendations (FATF) and the results of an evaluation of the third anti-money laundering directive.

CRS is the Common Reporting Standard under which member states of the European Union and countries that have concluded competent authority agreements exchange financial account information.

Entity

Examples of legal arrangements are: a *Vennootschap onder Firma* (VOF), a *Fonds voor gemene rekening*, a *Commanditaire Vennootschap* (CV), a *Maatschap*. Please note that a branch is not an entity itself, but is part of the head-office entity.

Exempt beneficial owner

An exempt beneficial owner is either a [financial institution](#) which is exempt from having to report pursuant to [FATCA](#), or a non-financial entity which is non-reportable for FATCA purposes. The following organizations qualify for the status of exempt beneficial owner:

If you are uncertain whether the entity could qualify for the exempt beneficial owner status, please consult a tax advisor.

owners pursuant to any other Model 1 IGA or Model 2 IGA.

Exempt code

An exempt code can be used by the United States tax authorities (IRS) for identification purposes. This code or character indicates that the entity is a non-specified U.S. person, which means that it is a nonreportable entity. According to the Internal Revenue Code the IRS uses the following codes:

- A an organization exempt from tax under section 501(a) or any individual retirement plan as defined in section 7701(a)(37).

FATCA is an abbreviation of Foreign Account Tax Compliance Act. This United States tax legislation is aimed at identifying U.S. persons that hold accounts or financial assets outside of the United States.

The government of the Netherlands has concluded an agreement with the government of the United States with respect to the exchange of information regarding:

- U.S. persons holding financial accounts in the Netherlands, and
- Netherlands residents holding financial accounts in the United States.

Financial institution

There are 4 types of financial institutions.

- 1 custodial institution: an entity that holds, as a substantial portion of its business, financial assets for the account of others (mostly clients). An entity holds financial assets for the account of others as a substantial portion of its business if the entity's gross income attributable to the holding of financial assets and related financial services equals or exceeds 20% of the entity's

gross income during the shorter of:

- three years prior to the current year;
- the period since the establishment of the entity.

- 2 depository institution: an entity that accepts deposits in the ordinary course of a banking or similar business. For example, a bank or a financial lease company.
- 3a investment entity: an entity that primarily conducts as a business one or more of the following activities or operations for or on behalf of a customer:
 - trading in money market instruments (cheques, bills, certificates of deposit, derivatives, etc.); foreign exchange; exchange, interest rate and index instruments; transferable securities; or commodity futures trading;
 - individual and collective portfolio management; or
 - otherwise investing, administering, or managing funds, money, or financial assets on behalf of other persons.
- 3b investment entity: an entity the gross income of which is primarily attributable to investing, reinvesting, or trading in financial assets, if the entity is managed by another entity that is a type 1, 2, 3a, or 4 financial institution.

Note: An investment entity includes an entity that functions (or holds itself out) as an investment fund, such as a private equity fund, venture capital fund, leveraged buyout fund, or any investment vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes.

- 4 specified insurance company: an entity that is an insurance company (or the holding company of an insurance company) that issues, or is obligated to make payments with respect to, a cash value insurance contract or an annuity contract.

If you are uncertain whether the entity is a financial institution, please consult a tax advisor or visit www.rijksoverheid.nl.

GIIN (Global Intermediary Identification Number)

The GIIN is a global reference number of the United States tax authorities (IRS). The IRS will assign this number to financial institutions and certain other entities for identification purposes. You may request this number via www.irs.gov. In some cases only the sponsoring entity of the financial institution has a GIIN. For the purposes of this form it is only then allowed to provide the GIIN of the sponsoring entity.

Governmental entity

This means the government of a country, any political subdivision of a country (which includes a state, province, country, or municipality) or any wholly owned agency or instrumentality of a country or of any one or more of the foregoing.

Group

A group is comprised of all the individual companies that are affiliated with other companies in the same group. Entities are affiliated if:

- 1 one of the entities controls the other entity; or
- 2 the entities are all controlled by the same entity.

In this respect an entity is 'controlled' if:

- an individual or legal entity in the group has a direct or indirect majority interest in the entity; and
- an individual or legal entity in the group has a direct or indirect majority vote in the entity.

Holding company

A holding company is an entity that functions as a (central) holding or controlling company for the underlying subsidiaries. The holding company controls and manages the shares of the entities in the group.

An entity is not a holding company if it functions (or holds itself out) as an investment fund, such as a private equity fund, venture capital fund, leveraged buyout fund, or any investment vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes.

IGA

An IGA is an intergovernmental agreement with the United States to facilitate compliance with the FATCA rules.

International organization

This means any international organization or wholly owned agency or instrumentality thereof. This category includes any intergovernmental organization (including a supranational organization) (1) that is comprised primarily of governments; (2) that has in effect a headquarters or substantially similar agreement with the country; and (3) the income of which does not inure to the benefit of private persons.

Non-participating FFI

Any Financial Institution that is located in an IGA jurisdiction generally cannot be a non-participating FFI. Only if the FFI has received notification of the fact that it is a Non-Participating FFI, this would be different. Such notifications will only apply from 2017, at the earliest. In all other situations, an FFI in an IGA jurisdiction does participate according to the FATCA regulations, is certified deemed-compliant, or an exempt beneficial owner.

The term non-participating FFI means a financial institution other than:

- a financial institution that is participating according to FATCA regulations;
- a certified deemed-compliant FFI, or
- an exempt beneficial owner.

If you are uncertain whether an entity is a non-participating FFI, please consult a tax advisor or visit www.irs.gov.

Non-profit organization

- the entity is considered a non-profit organization if the entity is considered a non-profit organization with only a religious, charitable, scientific, artistic, cultural, athletic, or educational purpose, or
- the entity is a professional organization, business league, chamber of commerce, labor organization, agricultural or horticultural organization, civic league or an organization operated exclusively for the promotion of social welfare that was established and is operated in its country of residence.

Additionally the entity must fulfill the following conditions:

- the entity is exempt from income tax in its country of residence;
- the entity has no shareholders or members who have a proprietary or beneficial interest in the income or assets of the entity;
- the applicable laws of the entity's country of residence or the entity's formation documents do not permit any income or assets of the entity to be distributed to, or applied for the benefit of, a private person or non-charitable entity.

An exception is made for income or assets used:

- pursuant to the conduct of the entity's charitable activities,
- as payment of reasonable compensation for services rendered, or
- as payment representing the fair market value of property which the entity has purchased.
- the applicable laws of the entity's country of residence or the entity's formation documents require that upon the entity's liquidation or dissolution, all of its assets be distributed to a governmental entity or other non-profit organization.

In cases where the entity is an *Algemeen Nut Beogende Instelling* (ANBI) or *Sociaal Belang Behartigende Instelling* (SBBII) according to the Netherlands Tax and Customs Administration, the entity will be considered a non-profit organization.

If you are uncertain whether the entity is a non-profit organization, please consult a tax advisor.

The list above is not exhaustive. A complete overview of passive income can be found on or www.oecd.org/tax/exchange-of-tax-information or www.irs.gov. If you are uncertain whether income is passive income, please consult a tax advisor.

Qualified intermediary

A qualified intermediary is an entity that has a QI agreement with the U.S. tax authorities.

Regularly traded on one or more established securities markets

An entity is considered to be regularly traded on one or more [established securities markets](#) if a meaningful volume of the stock of the entity is [regularly traded](#) on an established securities market.

Established securities market

An established securities market/recognized stock

exchange is a stock exchange which is officially recognized or ratified by a government institution of the country in which the stock exchange is incorporated. The stock exchange should be under the supervision of this governmental body. A stock exchange is considered established if a meaningful quantity of stock is being traded annually.

Regularly traded stock

Stock is considered regularly traded on a stock exchange if there is a continuously meaningful volume of trade in this stock. However, there is an exception to this rule: an interest (share, stock etc.) in a financial institution is not considered regularly traded if the holder of the interest (other than a financial institution that acts as an intermediary) is registered in the accounts of this financial institution.

An entity is tax resident in the Netherlands if its place of effective management is in the Netherlands. Furthermore, an entity that is incorporated under Netherlands law is supposed to be tax resident in the Netherlands, unless the entity has its place of effective management in a country that has concluded a tax convention with the Netherlands. The main facts and circumstances that determine whether the place of effective management is in the Netherlands are:

- the place where the important business decisions are made; and
- the place where the directors work and meet; and

Legal arrangements and tax residency

An entity such as a legal arrangement, that has no residence for tax purposes (transparent entity) is tax resident for [CRS](#) and [FATCA](#) purposes in the jurisdiction in which its place of effective management is located. If there is no place of effective management, the address of its principal office can serve as a proxy for determining residence. Please note therefore that the residence for CRS and FATCA purposes may differ from the residence for other purposes (income tax, treaty application, etc.).

Branches of entities

The tax residence of the branch of an entity is only in the country of tax residence of the entity to which the branch belongs. It is not necessary to list all countries in which the entity maintains branches.

When is an entity tax resident in another country?
The domestic laws of the other countries lay down the conditions under which an entity is to be treated as tax resident.
